### 26. Update your handles.

Change the look of your kitchen or bathroom by changing the handles on cupboards.

### 27. Change your front door.

Updating the look of a front door with a different handle or a coat of paint is an easy way to change the appearance of an entryway.

### 28. Paint your cupboards.

Instead of investing in new cupboards for your kitchen, update the look of them with a fresh coat of paint.

### 29. Add curtains.

If you've always had blinds covering your windows – or nothing at all – floor-length curtains will add height to your room.

### 30. Change your chandelier.

Dangle crystal beads from a chandelier after giving it a fresh coat of paint.

### 31. Spray paint.

Change the look of dressers and other large pieces of furniture with a fresh coat of paint.

### 32. Reuse old bookshelves.

Bookshelves can be reborn by wallpapering the back of them or painting them with a fresh coat of colour. They can even be used as shelves to store kitchen or hallway items.

### 33. Add candles.

Give any room a relaxing feel with a few candles.

### 34. Scent-sational.

Add a fresh scent to every room with freshly cut flowers or a batch of natural oils.

### 35. Get organized.

Pull all of your loose papers together and pin them to a bulletin board. This will make your space feel tidier and will make you feel more organized.

### 36. Create a great centrepiece.

Grab some fruit and place it in a glass bowl to pull together a creative centrepiece.

### 37. Add throw pillows.

Add throw pillows to unlikely places (for example, to dining room chairs) to give any room a cozier feel.

### 38. Go vintage.

Scour antique markets or stores for old-school bottles. Use them as vases for freshly cut flowers.

### 39. Create an earring rack.

This can be done easily by draping an old silky scarf along an empty wall. You'll be able to hook earrings through the material.

### 40. Downsize.

If you aren't using items in your home, clear the clutter and downsize. Making space will help every room appear larger than it actually is.
